Click Order Online > Digital Crafting

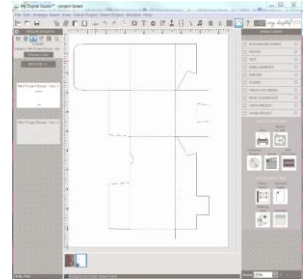

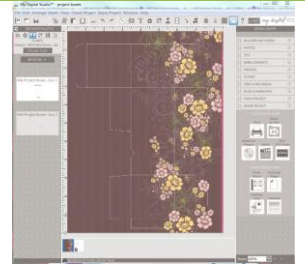

INSTRUCTIONS

Printing Project Box Templates & Digital Designer Paper

(you'll need to purchase the Box Template Download first)

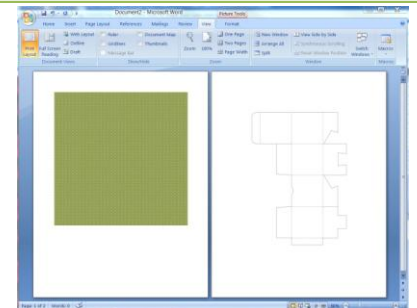

My Digital Studio

- To begin open My Digital Studio program and click:
 - New Project > Multiple Output Options > 8 1/2" x 11" Portrait > Create Your Own
 - (Name your project) > Blank Project
- To add Box Template click:
 - Stamps (left hand side) > Mini Project Boxes
 - Drag Box 1 into your workspace
- To add Designer Paper:
 - First add a second page by clicking Insert > Add Page (top menu)
 - Background Papers (left hand side) > (Choose which ever background paper you'd like)
 - Optional: You can insert the box template over the designer paper and arrange the paper pattern to fit the box. Be sure to delete the template from that page before printing so the lines don't print over the paper.
 - Optional Resizing: you can resize your box template to any size by dragging the edges of the image.
- To Print at home click:
 - Share Project > Print (create from home option) > Select All
 - Add Whisper White Card stock to your printer and print
(if your printer doesn't have an option to print double sided, you'll want to flip your card stock to get the Designer paper on the back)

MS Word (or photo editing software)

- To begin open a blank Word Document
- Insert > Picture > (open folder where you saved the download and insert Mini Project Box 1.png)
- Insert > Page Break (this will create a 2nd page for your designer paper)
- Repeat Step 2 and insert Digital Designer Paper of choice on 2nd page
- Print your project:
 - Add Whisper White Card stock to your printer and print
(if your printer doesn't have an option to print double sided, you'll want to flip your card stock to get the Designer paper on the back)

INSTRUCTIONS

Creating Box

- Cut out along solid lines.
- Score along dotted lines (using paper cutter & Scoring blade OR bone folder).
- Cut out front notch w/ scissors, or 1/2" circle punch (slit punch works as well).
- Assemble box, use sticky strip adhesive on notch.
- Decorate as Desired
