These visual instructions are from another pull tab flip card I'd made but help illustrate how to put the card together.

Score the pull tab at 2" & 2-1/4"

Cut a slot in the center of the printed panel with the small rectangle from the Stylish Shapes dies.

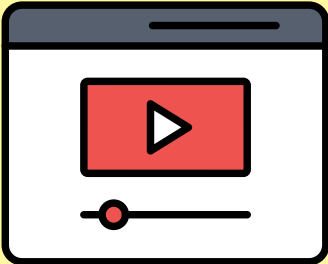

Attach the inside square to the first section of the pull tab, and the front panel to the small spine.

Slide the pull tab through the slot and attach to the back panel. Apply adhesive on the right edge of the inside square.

Attach Foam Adhesive Strips to the back of the black panel as shown, then attach to the card base.
